Doggy Daycare FAQs:

Q: How do I know if my dog is a good candidate for doggy daycare?

A: All new dogs will be temperament tested on his/her first day of daycare. Body language and behavior is evaluated upon interaction with temperament test dog. All other dogs are introduced in an individual, one by one manner.

Q: Are there breed restrictions?

A: No, all breeds of dogs are welcome to temperament test for doggy daycare participation, provided that there is no previous dog aggression or bite history.

Q: What do the dogs do in bad weather?

A: NDH has an indoor daycare play room that is utilized during inclement weather. On nice days, we spend a majority of our day outside, aside from lunch and rest breaks.
